

## Voom Shadow 2

Portable Forensics  
Digital Evidence Analysis  
And Presentation Device

# Accelerate the Speed Of Your Investigations To NOW!

- Immediate Access to Digital Evidence, No Imaging Required, Write-Blocked!
- Works with any operating system or software application, even custom designed.
- View all software, pictures & files, even when Encase or FTK can't.
- Operate suspect PC on-the-spot (e.g., abduction, murder, 'knock & talk').
- Quickly preview drives on-site, even drag & drop files to a USB device.
- Faster lab analysis (e.g., direct registry access, roll back to restore points, etc.).
- Upload forensic tools (e.g., password cracking); Immediate decryption.
- Confront suspect using seized PC; Screen shot evidence; Live courtroom presentation.

## It's All About Time – Your Time!

We don't just think outside the box . . . there is no box.™
