

Voom Shadow 2

Portable Forensics
Digital Evidence Analysis
And Presentation Device

Accelerate the Speed Of Your Investigations To NOW!

- Operate suspect PC on-the-spot (e.g., abduction, murder, 'knock & talk.')
- View all software, pictures & files, even when Encase or FTK can't.
- Immediate Digital Evidence Access, no imaging required, write-blocked.
- Quickly preview drives on-site, even drag & drop files to a USB device.
- Faster lab analysis (e.g., direct registry access to identify software revs).
- Confront suspect before he get's 'lawyered up'; live courtroom presentation.
- Immediate Decryption with the Shadow using suspect PC.

It's All About Time – Your Time!

We don't just think outside the box . . . there is no box.™
