POWERFUL PERFORMANCE

RECENT PRODUCT RELEASE

VOOM SuperDuper™ 1:8 Hard Drive, Stand-Alone Duplicator

Simplicity: *Only Minutes Needed to Become Proficient*

- Designed for ease of use with minimal training
 - 3 button input makes the SuperDuper the easiest to operate
 - 4 line LCD provides quick instructions and status
 - Tower mounted light indicates SuperDuper *in use*, *finished*, or *idle*
 - Beeper indicates *attention required*
- Standard SATA and parallel ATA built-in – no adapters required
- Laptops simply and quickly accommodated with optional laptop drive adapters
- All cables provided for out-of-the-box functionality for standard desktop SATA and ATA drives
- Open access – cabling and disconnecting drives is fast and convenient

Speed:

- Duplicates from 1 drive to 8 different drives at once
- Runs at data transfer speeds of up to 4.5 GB per minute *per drive*
- No slow down in performance whether 1 or all 8 drives are in use

Functions:

Duplication Modes

- Clone – exact block for block duplicate
- Smart Image – duplicates only file system and files/works with NTFS or FAT32

Wipe Modes

- Complete wipe – wipe up to 8 drives at once; speed up to 5.2 GB/min.
- Post-clone image wipe – if destination drive(s) are larger than master, set to wipe remaining blocks

Dependability: *Designed with Proven Technology*

- Engineered and built with Voom's proven HardCopy™ technology already in use worldwide* for *safe*, *fast* and *secure* forensic duplication
- Anti-static drive slots – protect hard drives
- Quick, friendly and reliable technical support provided

*(e.g., HardCopy technology upon which SuperDuper is based is in use by the FBI, State Department, Treasury, U.S. Military, state and local law enforcement, and many other agencies and private sector companies)

Affordability: *Unrivaled Cost-Effectiveness*

- First-class duplication capabilities without huge system costs – designed for large to small companies
